

# Worship Arts Ministries at ChristChurch

*"Each one should use whatever gift he has received to serve others."*

1 Peter 4:10 says...

There is much behind the scenes work that goes into every service and special event at ChristChurch. This cannot be accomplished without several dedicated teams of people.

## Tech / Multimedia

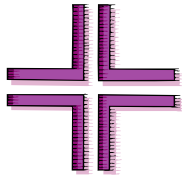

...takes care of setting up and operating the audio and visual systems for worship and special events, as well as making sure the office computer systems are running smoothly. A great ministry for those who love to be involved but may not want to be "up in front".

Current ways to get involved:

- Audio Mixing during worship (works with the Worship Team to make Sunday worship a good experience)
- Visual (PowerPoint) operation during worship
- Technical Support for ChristChurch computer systems
- Multimedia/Video Projects/Design

We are looking for new people to join this critical team. Volunteers work Sundays on a rotational basis. There are tasks for any level of experience—no previous experience necessary. If you have a heart to serve, just come. We will help you find a role that best suits your gifts and interests.
